

## The Oracle Brand Identity Color Palette and Typography

Color and typography are two of the most effective elements ensuring a clear and consistent presentation of the Oracle brand identity and are essential to maintaining a strong worldwide brand. The logos must never be reproduced in any other colors or typefaces than those specified.

### Colors

#### Oracle Red

Pantone PMS 485 C  
Process 0C, 100M, 100Y, 0K  
RGB 55R, 0G, 0B  
Hexadecimal=FF0000

#### Oracle Black

Pantone PMS Black C  
Process 0C, 0M, 0Y, 100K  
RGB 0R, 0G, 0B  
Hexadecimal=000000

#### Oracle Grey

Pantone PMS Black C (50%)  
Process 0C, 0M, 0Y, 50K  
RGB 127R, 127G, 127B  
Hexadecimal=7F7F7F

### Typography

#### Univers 55

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
123456789

#### Univers 65

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**123456789**

#### Garamond 3

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
123456789

#### *Garamond 3 Italic*

*ABCDEFGHIJKLMNOPQRSTUVWXYZ*  
*abcdefghijklmnopqrstuvwxyz*  
*123456789*

## Education Certification Logos

The Oracle brand identity architecture was developed to bring a common look and feel to the brands under the Oracle brand umbrella. It is based on the Oracle signature and includes a descriptive name that identifies each Oracle-branded education certification logos. Each brand identity was created using the corporate fonts and color palette. No brand identity should ever be altered.

### Tier One Education Certification Logos

**ORACLE®**

**Color and Typography of Logo Elements**

1. Color: Oracle Red  
Typeface: None
2. Color: Oracle Gray  
Typeface: None
3. Color: Oracle Black  
Typeface: Univers 65

**X-height**

x is the height of the Oracle signature.

**Education Certification Logos Logo Elements and Proportions**

The logo is made up of several elements—the Oracle signature (1), dividing rule (2), and education certification name (3). Each element has a specific spatial relationship to other elements within the logo. The dividing rule must be at minimum the same width as the Oracle logotype, and at maximum the width of the education certification name. This education certification name must be written in upper- and lower-case text. The education certification name has a maximum of 20 characters per line of text; if the education certification name is longer than 20 characters, then continue onto a second line (please do not use hyphens; whole words only). These relationships must remain consistent throughout every use of the logo.

**Tier One Education Certification Logos**

**X-height**  
x is the height of the Oracle signature.

## Education Certification Logos Clear Space

The logo should never have to compete visually with other graphical elements. Minimum clear space has been established (x). Clear space (x) is equal to the measurement of the height of the Oracle signature (see diagram below). Never use less than the minimum clear space. Clear space is relative to the size of the Oracle signature.

### Tier One Education Certification Logos

## Education Certification Logos Minimum Size

The logo should always be large enough to ensure legibility. By establishing a minimum size, Oracle ensures the logo is always prominent and readable at reduced sizes. The minimum size measurement refers to the width of the Oracle signature. There is a print (printed materials) and pixel (on screen) minimum size requirement.

### Print Minimum Size

### Pixel Minimum Size

## Education Certification Logos Color Usage

### Unacceptable Color Usage

Never change the color of the Oracle signature.

Never create one-color logos with other Oracle colors.

Never use unapproved colors.

The logo is designed with the use of three colors: Oracle Red, Oracle Gray, and Oracle Black. Please refer to page 1 for color specifics. The use of white backgrounds is preferred. The logo is also designed as a single black-and-white (one-color) option for specific applications, i.e., newspaper advertising. This color usage applies to all tier one and tier two education certification logos.

### Three-Color Logo

### Black-and-White Logo (One-Color)

## Education Certification Logos Background Control

### Unacceptable Background Usage

Never allow colors to vibrate.

Always make sure there is enough contrast.

Never place logo on a 4-color photography that impacts legibility.

Never use logo as a pattern.

Never stretch the logo.

Never use a drop shadow.

The three-color and black-and-white logo on a white background is always preferred. Using the logos on black/dark backgrounds is acceptable but not recommended. Most importantly, make sure the Oracle education certification logos are always legible. This color usage applies to all tier one and tier two education certification logos.
